3G VIDEO

2 WAY AUDIO

PAN, TILT & ZOOM

DIRECT TO YOUR 3G MOBILE HANDSET

ConnectVu-Cam3G is the most powerful 3G monitoring device in the world. It comes with an array of features such as: night vision, remote control, password control, remotely controlled camera lens, 3x zoom, high quality loudspeaker & microphone, and much more.

Real-Time Video & Audio are now as simple as making a video call to the camera directly from your 3G phone. Once connected you can View Live Video & Audio, and even have 2 way conversations. The camera can even record the video on a Micro SD T-Flash card for future use.
