

## The KX-TCA175 DECT Handset - Integrated Wireless Mobility Solution!

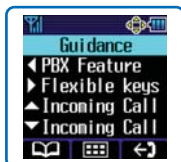

Panasonic's KX-TCA175 DECT is an integrated wireless mobility solution designed specifically for use with Panasonic PBX's. It is a perfect choice for users who want good performance in a larger handset.

Businesses can increase employee availability and productivity using Wireless XDP (eXtra Device Port), as users can set their KX-TCA175 DECT to have the same extension as their desk phone, allowing them to receive and make calls even when they are away from their desk.

Automatic hand-over between installed wireless cells - enhances coverage and gives true communication mobility even within large premises.

### Full Access to PBX Enterprise Features

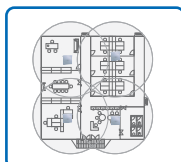

Fully Integrated with enterprise telephony features like Multi-line, Dial by name, etc. Flexible CO Keys let you register PBX features and handset functions for quick, convenient access.

### Illuminated Keypad

For easier operation in low lighting, the enhanced keypad lights up when a call comes in or when you touch any key.

### Seamless Connection – Automatic Hand-Over

Maintain high connection quality as you walk around, moving from one cell station area to the next while continuing with important business conversation.

### Colour LCD Screen

The new colour LCD screen allows clearer visibility and easier operation from the phones screen. It also allows the phone to be used even in dark conditions.

### 200-Station Phonebook

The built-in telephone directory lets you store up to 200 names and numbers.

### Power Save Mode

To reduce power consumption the handset turns off the back light depending on the setting for power saving, hence helping to extend the battery power time.

### Talk on charger

Users can now talk on a call whilst the KX-TCA175 is charging. When this feature is on, the call is automatically switched to speakerphone when it is put in the charger.

### Answer with Headset Button Switch

Make answering calls easier with a headset button for unrestricted freedom of hands-free communication. Leaving you free to answer incoming calls keeping your hands free to continue with any task at hand.
